PROFESSIONAL SUMMARY

Full-stack developer and Computer Technology undergraduate (2027) building end-to-end web applications with TypeScript, React/Next.js, Node.js/NestJS, PostgreSQL, and Redis. Shipped LINEUP, a multi-tenant interview platform spanning frontend, REST APIs, background jobs, and data layer, at Mintskill, and web and mobile features with real-time vehicle tracking for an internal fleet platform at ideaForge. Comfortable across API design, data modeling, authentication, caching, and responsive UIs.

SKILLS

Languages	TypeScript • JavaScript • Python • SQL • Rust
Backend	Node.js • NestJS • Flask • REST APIs • JWT Auth • WebSockets • Job Queues
Frontend	React • Next.js • React Native • HTML5 • CSS3 • Responsive Design • State Management
Databases	PostgreSQL • MySQL • Redis
DevOps/Tools	Docker • AWS • Git • Linux • Postman • Testing & Debugging

EXPERIENCE

Web & Mobile App Developer Intern Aug 2026 – Present
ideaForge Technology Limited, Navi Mumbai

- Building web and mobile features for iF FleetDesk, an internal fleet management platform, including role-based interfaces for five user roles and a 4-step booking flow for passenger, material, and multi-stop trips.
- Developed dispatch and scheduling workflows covering capacity matching, driver assignment with conflict validation, and recurring rides with reservations and no-show handling.
- Integrated vehicle TCU GPS data with the Google Maps API to render live vehicle locations on an interactive map for real-time fleet tracking.

Software Engineering Intern Dec 2025 – Apr 2026
Mintskill HR Solutions LLP

- Built LINEUP end to end: a multi-tenant interview platform with a Next.js frontend and a NestJS, PostgreSQL, and Redis backend, enforcing strict row-level tenant isolation and JWT authentication.
- Developed OCR ingestion, reporting, and caching pipelines processing 1,000+ candidate records per upload.
- Built Node.js services and Redis-backed background job queues to move heavy processing off the request path, keeping API responses fast.
- Integrated REST APIs with ATS/CRM platforms to automate recruiting workflows across systems.

PROJECTS

Link All – Phone & Computer linkall.chinmaykudalkar.com | Microsoft Store | GitHub (22 stars)
Rust, Kotlin, Swift, C#, WebSockets, mDNS. Built a local-first continuity platform connecting Android, macOS, Windows, and Linux with a shared Rust networking core. Implemented encrypted peer-to-peer file sharing, clipboard sync, camera/call continuity, automatic discovery, resumable transfers, and resilient peer reconnection. Shipped publicly on the Microsoft Store; Android app in closed beta on Google Play.

GitSummarizer
React, Flask, Python, GitHub API. Built a full-stack repository analysis tool: a React frontend backed by a Flask API that pulls repository metadata from the GitHub API and generates contextual summaries locally with Qwen 2.5 3B Instruct.

EDUCATION

B.Tech in Computer Technology, RT-MSSU 2023 – 2027 | **CGPA: 7.3**
HSC (PCM CS), Stann Knowledge Campus, Mumbai 2022 – 2023 | **82.33%**
SSC, St. Willibrords High School, Mumbai 2020 – 2021 | **71.80%**

CERTIFICATIONS

AWS Certified Cloud Practitioner (2026) | Databases – Certiport (2024) | HTML & CSS – Certiport (2024)
